

HEAVY / RUSTIC CHARACTER PRODUCTS

Provenza **Heavy to Rustic Character Grade** floors are handcrafted to achieve the look of rustic, time worn, beautifully aged and naturally distressed hardwood.

Each plank is carefully chosen for its rich character, color and grain variations. Every plank is hand tooled and stained and no two pieces are the same.

Heavy to Rustic Character floors may include knots, mineral streaks, weathered cracks, splits, splintering and other imperfections that are not considered defects.

Your installed floor may reveal greater variations of color, grain and character between individual planks than what is represented on this sample board and is not considered a defect in the installed product.

Sample boards that are aged or exposed to sunlight may appear different than the flooring it is meant to represent. Provenza accepts no liability for claims due to variations in color, grain and character between the sample board and your installed floor.
